

# AFRICAN PREDATOR JAKKALS SKIET STOEL

Gary Laubscher 0824853885

New 2014

**NEW FOR 2014 - Jakkals Skiet Stoel**

**New addition to our line up, a brand new skiet stoel that has two bearing systems, dead quiet armrest and the light is fitted to the front of the shooting arm under the rifle barrel. The pipe is designed to fit a lightforce light with a scope fitting.**

**The chair has a side section to fit a storage box and a rear battery holder to place the 12V battery. Chair has a mounting system for your remote and dimmers next to the armrests. Chair does not come with padded seat / backrest as previous sales have taught us every person wants a different padding, so this is for the customer to fit.**

**The system used to make the chair is dead quiet and swivels with the greatest of ease; the arm that the rifle fits into is designed to follow an animal called in to any angle or direction that he will come from.**

**Watch the site for more photos and information to come.**

**Chairs are mailed via Time Freight couriers from Cape Town.**

**A deposit will be required when placing an order and chairs are made on order ONLY, chairs will take 7 days to manufacture, and will be mailed once the balance of the funds are paid.**

**Chair retails at R7, 500-00**
