

BOERE WAT JAKKALSE / KATTE PROBLEME HET – MAAR WIL NIE BETAAL NIE

I am so sick of these people, who expect freebies, if you are one of these people read this and if this is you, please don't call us, it is a thing that has now reached its peak with me and I am gatvol of these people.

I am so tired of getting calls like this – a farmer calls, he has lost 10 lambs in a week etc.... or whatever... he would like to know if we can come out, I say yes, get a permit, and I will come, depending on distance it will cost whatever, the last call was yesterday, in Philadelphia, I quoted him petrol, and when I said that he said moenie worry nie, I will get the neighbour, BUT---

He had not even heard what I was going to say about charges for animals, he cut me short, so many farmers expect us to come out free, pay the petrol that's expensive, we pay that, use our bakkies, use our equipment (my personal equipment I hunt with all EXCLUDING BAKKIE AND GUN is R109-000.00

They expect it is free, that we come out, call all night, freeze our balls off, and go back home poorer than when we got to the farm.

**PLEASE if this is
you, don't call us,
phone some other
sucker, I am really
gatvol of these
people, if this is
you read this
again and if you
don't get it then
read it again and
again.....**

I am not saying everybody is like this, but far too many are!
