

REASONS WHY YOU SHOULD PURCHASE SUCH A CALLER

- Built in a part-metal container, so will not get damaged easily
 - Large 20W / 30W speaker - your choice
- Caller is really loud, not that you need it very loud but it is!
 - Folds up compactly and is nice and small
- Comes with 100 sounds of your choice from the Foxpro library
 - African sounds to choose from – or just ask for Gary's
 - Remote control burns red at night with a dimmer
 - You can set the volume to move in increments
- CS – 24 can take 500 sounds, more than the top-of-range
 - Custom caller is cheaper than the top-of-range Foxpro
- Sounds you get pre-loaded are free of charge + crystal clear
- The remote control is a very nice size and fits your hand well
 - The remote does numerous things
 - Remote picks up at a very long distance
- You can pre-program the remote like a cellphone -10 sounds
 - Remote has two fast-programmed sounds to use
- Easy to see at night with a red light on the remote's face
 - **CHEAPER THAN THE TOP-OF-THE-RANGE FOXPRO!!!!!!**
 - Easy to load your own sounds at the farm to the caller
 - Takes rechargeable penlight batteries
- Has sounds 99,9% of all jackal have never heard – increasing results

The Foxpro CS-24 is made one at a time by hand, it is not mass produced, and not a made-in-China product. Each caller is custom made and you can do so much with it. I know that it is value for money and you can't go wrong. I would purchase this due to its affordability and features. Contact joe@gofoxpro.com to order; he will ask you for a credit card number, street address and telephone number, and after it's been made it takes 5 days to you! Totally safe to order and the goods are sent via UPS courier.

See my website here for more detail on this new custom CS-24 caller
