

JAKKALS VERWARRING

JACKAL CONFUSION

Many will say man can that be true when calling?
Surely not? – Well, yes it is true and it can be done.

This is something I was always sure of, but was not sold on the fact – we call a jackal, he comes downwind and hits overdrive as he winds you and so on, **SO, try this!**

USE TWO CALLERS- I have a Foxpro Fury and a Spitfire, I make use of both and it has without a doubt made life far easier. Here is my plan of thought.

A typical dog will move in a circle to downwind to try smell that rabbit etc, so we must create a trick to outwit him and make him make a mistake. I called 4 jackals with this principal and all 4 got the wind WRONG. Now we make it a decision a dog must make and add a little confusion in on the deal, to try kill him.

NORMAL HUNT

This is a pretty normal setting with a single caller, pretty much how everybody hunts, **BUT NOW LOOK NEXT!**

HUNTING WITH 2 CALLERS

IDEA AND THOUGHT OF THIS CONCEPT

I pretty much call this a confusion set, it is a style we used on a recent hunt and all four dogs approached the call wrong! This cost them dearly as they are all dead!!

Using this concept confuses the jackal, he cannot decide what sound to approach and using two at an angle makes him think harder and chances are he will get the wind all wrong.

The arrow to show his approach angle and the 4 RED MARKS is the location of the 4 jackal we killed using this method, see the places they died and see the wind direction - they all got it very wrong!

THESE STANDS I USED FOOD - ON 5 SECONDS OFF A MINUTE DO IT TWICE THEN GOOI JAKKALS BLAF, DAN AF, THEN STRAIGHT AWAY FOOD 5 SECONDS ON WAIT ONE MINUTE, CARRY ON 15, GOOI JAKKALS VEG, EN KOS WEER, BY THEN THESE DOGS HET HULLE GAT GESIEN. THEY ALL APPROACHED FROM THE WRONG DIRECTION

This big male got the wind all wrong; he came in the other side of the wind, and paid the price. He took a while.

I use the 2 caller system often now; it has really increased the results.

Hope this helps, - I am often told, Man you have a real grand website and was recently told its one of the best around, and also why do I reveal so many secrets? Simple – why not!

Happy calling!
