Subject: Sounds

Good day Gary

I started hunting jackal about a year ago, at the beginning it was very hard and had no success, after reading all your info it was clear that you know these predators better than their own mothers know them, and after applying your methods and upgrading my equipment I have had huge success. It's my passion to hunt predators but my main problem is the sounds, good sounds are very hard to get my hand on. Is there a cd that I can purchase from Feather and Fur with better sounds as I have a few but I don't think they are the best out there.

I enjoy all your writing and thanks for all the secrets revealed it helps.

Regards
Francois

Baie dankie Gary ek het die klanke en inligting ontvang, ek gaan dit verseker probeer, ek het nog baie om te leer as dit by jakkals jag kom, maar iemand soos jy help om dit baie viniger te leer, ek het nog nie iemand gekry wat inligting, raad en geheime deel soos jy nie, die ander jagters is maar snaaks en vertel jou n klomp twak. Ek wardeer dit baie en ek stuur graag vir jou die fotos as ek hulle gekap het.

Groete
Francois
