Your decision to book a hunting excursion and to go this route is at the end of the day going to save you a lot of money. Normally international hunters / tourists use an agent in USA to look for a venue and get references etc to make the process easier, but this also makes the hunt cost far more, as more commissions are due to be paid to all the other persons involved.

Here are various pointers as to exactly what areas you will benefit from if booking an excursion from us:

Direct booking means no middle man (or a few) to pay except the hunting business, no extra costs
No agent needed to plan your holiday and to make up itineraries.
You wont need to book with a company with agents to pay for shuttle services from airport and back
We collect you at the airport and take you back
We have no hidden costs – some outfitters have costs not mentioned
We **DO NOT** charge a per person fee per day like many other outfitters (+- $250 / $350 per day)
You will not find that you are liable for more than what was originally quoted unless extras are requested

Booking a venue with an outfitter for international hunters requires that a registered professional hunter be used to guide you, if you need any documentation for proof etc please contact Gary Laubscher so that all documentation can be viewed. You will need to have good health and make sure to visit your local doctor to get his approval and if be all the necessary vaccinations.

**BOOKINGS – See our site under PRICES for option**

All clients are required to pay for the hunting venue within 3 months of the hunt. The fee required to book your hunt will be the total of your hunt. Because we don’t use agents to book for us we need to have available funds to us to book your guest lodge stays etc, some of the guides that will be with you on this venue will have to also make use of airfares to fly to Namibia to entertain you as we don’t always only hunt one area.
So, it’s important that we have funds available to be able to conduct these mentioned things above.

**No booking will be accepted until payment is received in full**

If you are hesitant as to “what if’s” you can be assured that references will be available for you to contact throughout the USA and England to put your mind at rest that we are indeed a genuine outfitter etc.

As paying tourists that make use of travel to far places it would be very nice to get assurances of species targeted, HOWEVER we all know that it’s no supermarket and you are not assured of what you want. BUT weather permitting etc you will be in the company of top class professional people. And if its predators you are after you will find very little (if any) other people in the similar business that will be able to match hunting styles and professionalism around the hunting of predators. *(References go as far back as 12 years)*
